

REBELDOT CEO, TUDOR CIULEANU, IS THE ONLY ROMANIAN INVESTOR PRESENT AT CRYPTO INVEST SUMMIT IN LOS ANGELES

CLUJ-NAPOCA, 22 OCTOBER 2018 - After acquiring Imprezio Global's Services Division, now known as RebelDot, at the beginning of the year, CEO Tudor Ciuleanu makes a new step on the investors' market with his participation at [Crypto Invest Summit](#) in L.A., as the only Romanian investor present at the event.

"I'm very excited that I was invited to be part of Crypto Summit together with investors and leaders across the world. As far as I know, I'm the only Romanian investor present there so it's also a good opportunity to showcase the potential of Romanian software companies in this vertical. Looking forward to meeting as many brilliant minds as possible.", said Tudor Ciuleanu.

Crypto Invest Summit is the "West Coast's Largest Cryptocurrency and Blockchain Event" that will take place during October 22nd – 24th. The summit brings together under one roof investors from all around the Globe, as Josef Holm, co-founder of Crypto Invest Summit and [CEO of Krowdster explains](#): "We all want to invest, but we don't know where to begin. We're bringing the best investors, successful entrepreneurs, smartest lawyers and accountants under one roof to show us how it's done."

Speakers like Steve Wozniak will be taking the stage at the event as well, to showcase the potential of the industry and talk about what to expect from blockchain in the future.

Tudor Ciuleanu is planning to invest in startups that will bring innovative ideas and scaling capabilities to the table: "Cryptocurrency and blockchain are emerging trends that are gaining more and more attention from the investors. I'm looking for a startup that can surprise me with their innovative idea, scaling capabilities and passion for what they do. Passion, although not quantifiable is a key ingredient weighing in my decision process."

Apart from his presence at the Crypto Summit, Tudor Ciuleanu will also be joining another blockchain event in Malta at the beginning of November.
